

LIFE IS SHORT... YOUR LASHES SHOULDN'T BE

WHAT ARE LASH EXTENSIONS?

Eyelash extensions lengthen and thicken your natural eyelashes, our lash collections consist of a custom blend of silk and mink. They are applied to each individual eyelash with a specially designed bonding agent for a natural, beautiful and luscious look.

HOW ARE THEY APPLIED?

You will lie comfortably on one of our aesthetic beds with your eyes closed. The Eyelash technician will then apply an under eye gel pad to cover & protect your lower lashes. The extensions will then be applied to each individual eyelash with a specially designed bonding agent.

DOES IT HURT?

Not at all! Our clients describe the experience as relaxing, some of our clients even fall asleep during their lash appointments! Remember, lash naps are always free.

HOW WILL I KNOW WHICH SERVICE TO GET?

Not sure if you want a dramatic or natural look? No problem! Our experienced lash technicians will consult with you prior to beginning, we will examine your natural lash and decide on a lash curl and thickness that best suits you and your face. You're never stuck with one look! Want to try something different? – We can change it up at your next fill!

CAN I APPLY MASCARA TO EYELASH EXTENSIONS?

You probably won't need to! However, if you'd like to you can – as long as it's a water-based mascara. We highly recommend you use the Lashforever Canada Mascara that has been specially formulated to wear with these lashes (available to purchase at Blush Boutique!)

If you do choose to wear mascara, care needs to be taken in washing off the mascara. We recommend the LFC Facial Cleanser also available for purchase.

WILL MY LASHES FALL OUT?

It's normal for your lashes to fall out. Just like your hair, your lashes have a natural life cycle – every day you lose a few lashes – and new ones grow in to replace them. When you come in for a fill, we will attach extensions to your new lashes.

HOW OFTEN SHOULD I GET A FILL?

We recommend getting a 30 minute fill every 2 weeks, a 45 minute fill every 2-3 weeks, or an hour fill every 3-4 weeks – depending on how quickly your lashes grow. If you wait too long between fills, you will require another full set.
